

INDIANA DO NOT CALL LIST:
DEAR sirs,

The banking industry is trying to say that indaina's do not call lit is more stricter then the federal list. The truth is "it is" . they are also saying that they want one and only one standard to govern the lists. well The stae of california has stricter guidelines for clean air emmisions for the automobile industry then the federal and there's are still being inforce. Those of use in indiana have gotten tired of picking up the phone and saying no. If our standards are left alone then the telemarketers won't have the trama for people constantly be negeative to them and thus won't have to spend their money on medical problem stemming from this. SO THE STANDARD HAS BEEN THERE LET'S KEEP IT. KEEP OUR LAW INTACK LOYD B GRADY JR
